SUMMARY

I am a seasoned full stack developer with a solid foundation gained through internships at TechVantage. Proficient in both front-end and back-end development, I excel in creating intuitive user interfaces and implementing robust backend solutions. My collaborative approach and adeptness with cutting-edge technologies make me a valuable asset for delivering comprehensive and high-quality software solutions

EXPERIENCE

Frontend Developer

Techvantage

📅 2023 - 2024   📍 Abuja

Techvantage is a Product Engineering company specialized in Analytics, Machine learning and AI-based solutions.

- Contributed to the development of new features, working closely with cross-functional teams to seamlessly integrate functionalities into the front-end
- Demonstrated versatility by addressing challenges in front-end development, showcasing adaptability and problem-solving skills.
- Which of your achievements match the job you're applying to?
